Voyager Industries™ Opens New 30,000 Sq. Ft. Finishing Facility

Voyager Industries expands, building a new 30,000 Sq. Ft. finishing facility to finish Yetti Fish Houses™ and house their Black Line™ Conversions business.

Brandon, MN -- November 24, 2020 – Voyager Industries, Inc. a leading manufacturer and distributor of aluminum is pleased to announce a new facility completed in Pine River, MN. The new 30,000+ sq. ft. facility will allow Voyager to complete the interior finishing in-house of their Yetti Outdoors all-aluminum fish houses, as well as provide much needed space for the newly acquired Black Line Conversions.

The Pine River site includes three buildings: a woodworking and cabinet building shop, a production facility, and a warehouse. It also has four service bays designated for Black Line Conversions, and fish house, RV, and horse trailer service work.

“We couldn’t have received a better welcome from the City of Pine River and surrounding area; we’re very appreciative of that. We’d also like to thank the Cass County Economic Development Committee for their part in bringing this project to fruition. With this investment we look forward to being a staple employer in the area for years to come.” said Gary Suckow, President and CEO of Voyager Industries.

The expansion site project was completed in April and the Voyager team has since been working diligently to hire and train a skilled workforce to drive their production needs.

Suckow said, “since April we’ve hired and trained over 15 new team members to meet the demands of our Yetti Fish House products and growing business unit Black Line Conversions.”

Voyager currently is booked out with orders into next year (2021) and is anticipating business to continue growing with the recent spike of involvement in outdoor activities.

Voyager Industries is a privately held company located in Brandon, MN with over 20 years of experience. Current brands of Voyager Industries include Yetti Outdoors, Black Line Conversions, Voyager Dock®, Titan Deck®, Bear Track Trailers™, and Voyager Aluminum. With 125 employees and 120,000 square feet of warehousing and manufacturing space, Voyager Industries can handle jobs from prototype to full product production.
